

K-Love is important to our community in important ways. I teach in a Catholic school and it is awesome to put the radio on a Christian rock station and have junior high kids singing along with songs that they would not necessarily listen to without K-Love. And the presence of K-Love in this community was a positive aspect when deciding to move here to Kodiak, Alaska.

I think our community greatly benefits from the message and good music on K-Love. I would deeply miss the station if it lost it's ability to be aired here. The music played on K-Love talks a great deal about hope, family, and love. Contrast that with the messages heard on pop-radio - about infidelity, abuse, hate, etc. and it is easy to see why this radio station should be aloud to continue and promoted into new areas if possible. It is truly positive and encouraging programing.

Thank you for your time.

Sincerely Yours,

David Wages
